| I   | 1  | (A)                                                                                                                                                                                                                                                         | b |     |   |     |   |   |   |   |   |   |    |   |  |
|     | 2  | (B)                                                                                                                                                                                                                                                         | e | (C) | a | (D) | c |   |   |   |   |   |    |   |  |
|     | 3  | デジタルツールは、学業や社会的な成長を促しながら、高校生活（高校での体験）において、積極的な役割を果たしている。                                                                                                                                                                                                    |   |     |   |     |   |   |   |   |   |   |    |   |  |
|     | 4  | 中高生世代（若年層）は、しばしば、インターネットやソーシャルメディアのアプリをもとに、健康に関する意思決定をすることがあるが、その情報の医学的な妥当性が疑われることがあるから。                                                                                                                                                                    |   |     |   |     |   |   |   |   |   |   |    |   |  |
|     | 5  | (1)                                                                                                                                                                                                                                                         | b | (2) | b | (3) | a |   |   |   |   |   |    |   |  |
|     | 6  | ＊正解はないため下記は解答例<br><br>In the future, fake news on social media will probably become much worse than today. AI will continue to advance, and therefore, it will become even more difficult for us to know what reality is when we see posts on social media. |   |     |   |     |   |   |   |   |   |   |    |   |  |
| II  | 1  | a                                                                                                                                                                                                                                                           |   | 2   | d |     | 3 | b |   | 4 | a |   | 5  | d |  |
